	4 December 2024	-	3 December 2026

This certificate of approval issued based on the documents submitted by the applicant and sampling analysis carried out on construction material during the factory audit as per the approved Guidelines and Checklist of CPA for conformity. The audit process done on a sampling basis involving checking on the Industrialised Building System (IBS) production control system, production facilities, component conformity to standard, and assessment of the supporting quality management system. The registered Professional Engineer with Practicing Certificate (PEPC) and/or project architects shall be responsible for approving on the final use and application of CPA-approved products at the construction site. The contractor shall be responsible for the handling and erection or dismantling of the CPA-approved products during construction activities. This certificate remains the property of CREAM and shall be returned upon request. The use of this certificate is subject to the CPA Terms & Conditions

Certificate is approved and issued by
